

Assembly Instructions for G-450 Forklift Cart

1. Place foot plate on level surface as shown
2. Place vertical supports positioned on top of footplate as illustrated.
3. Insert Use 3/8" carriage bolt, head side in forklift channel. Use carriage bolts, lock washer, nut and washer set to attach (8 sets).
4. Wrench tighten all bolts. Do not overtorque bolts.
5. Retighten bolts at least monthly, more often if cart is in frequent use. Replace all worn straps immediately. For questions and replacement parts sources, call customer service (715)424-2247
6. Always secure cylinders with straps. Chains, where provided, should also be used.
