

Assembly Guide G-953HR Hoisting and Cylinder Locking Assembly

Hand Truck Models G-956, 945, 949, 976, 995, and 999

**TO BE USED ONLY IN
CONJUNCTION WITH FIRST SAFETY
TWO CYLINDER HAND TRUCKS**

Assembly includes:

G-953HR Hoisting Post (1)

3/8" x 2" bolts, nuts, lock washers
and flat washers (4 each)

Cylinder Locking Posts (2)

Cylinder Locking Rings (2)

3/8" wing bolts (6)

3/8" washers (4)

1. Attach hoisting posts as shown through rectangular slots in brackets
2. Add 3" long bolts, washers, lock washers and nuts as illustrated
3. Slide Locking Posts in square holes in brackets. Secure in elevated position with wing bolts.
4. Add locking rings to locking posts and position around the cylinder cap threads. Attach cylinder cap firmly in place. Tighten wing nuts and wing bolts.
5. Check all fasteners for security daily while in use.
