

Assembly Guide G-953LP Cylinder Locking Posts Assembly

Hand Truck Models G-955, 959, 944, 950, 954, 975, 990, 994, 970, and 974

**TO BE USED ONLY IN
CONJUNCTION WITH FIRST SAFETY
TWO CYLINDER HAND TRUCKS**

Assembly includes:

Cylinder Locking Posts (2)
Cylinder Locking Rings (2)
3x8" wing bolts (6)
3/8" washers (4)

1. Slide Locking Posts in square holes in brackets. Secure in elevated position with wing bolts.
2. Add locking rings to locking posts and position around the cylinder cap threads. Attach cylinder cap firmly in place. Tighten wing nuts.
3. Tighten wing bolts locking the ring height correctly to secure cylinders.
3. Check all fasteners for security daily while in use.
